```
Hw8 陣列類別排序
使用一類別,將輸入
成績(由大排到小)
姓名(A到Z)
學號(由小到大)依序排序
(輸出會有三種格式)
以下為參考
class Student{
   String name; int id; int grade;
   public student(String name ,int id ,int grade){
   public String toString(){
   }
}
class CompareName implements Comparator< Student >{
   public int compare(){
   }
}
class CompareID implements Comparator< Student >{
   public int compare(){
   }
class CompareGrade implements Comparator< Student >{
   public int compare(){
   }
資料:
Caleb, 104992, 99
Derek, 102113, 88
Dylan, 101111, 12
Anthony, 009123, 13
Bruce, 102334, 12
Spike, 110222, 1
```
